

Caratteristiche tecniche

NET

Specifiche di prodotto / Product specifications

Armatura / Weave	NET
Spessore / Thickness	1 mm
Peso / Weight - UNI 9213/3	560 gr/m ²

Densità armatura / Weave density - UNI 1049/2

Ordito / Warp	6,2 fili-yarn /cm
Trama / Weft	5,2 fili-yarn /cm

Prestazioni tecniche / Technical specifications

Carico rottura / Breaking load - UNI EN ISO 1421

Ordito / Warp	280 Kg/5cm
Trama / Weft	230 Kg/5cm

Allungamento a rottura / Breaking elongation - UNI EN ISO 1421

Ordito / Warp	19 %
Trama / Weft	15 % >

Resistenza a fatica / Fatigue strenght EN 1728:2000 - EN 15373:2007 - LIVELLO 3° SEVERO / 3° HARD LEVEL	200.000 cycles / 1.000 N
-------------------------------------------------------------------------------------------------------------------	--------------------------

Resistenza alla luce / Lightfastness EN ISO 4892-2/06 - COL. 0152-5154-1140-0600-4202-0108-4104-1100-2116	8 - val. max
---------------------------------------------------------------------------------------------------------------------	--------------

Solidità colori allo sfregamento / Color fastness to rubbing EN ISO 105-X12:2003 - COL. 4165-1101-2102-4154-4104-1195	5 - val. max
---------------------------------------------------------------------------------------------------------------------------------	--------------

Resistenza ad abrasione / Abrasion resistance MARTINDALE EN ISO 12947-2:1998	> 100.000 cycles
----------------------------------------------------------------------------------------	------------------

Composizione / Composition

Titolo filato Ordito / Warp yarn	4.700 dtex
Titolo filati Trama / Weft yarn	4.700 dtex

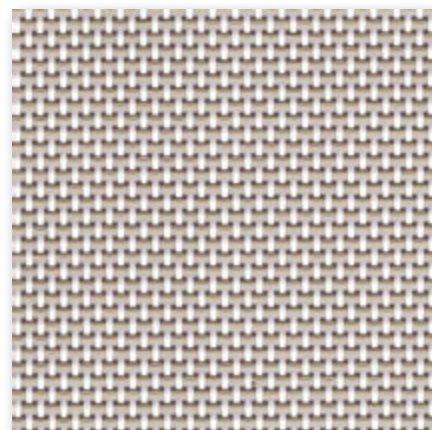

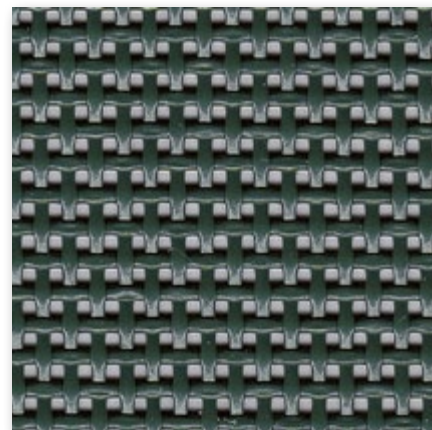

Componenti tessuto / Fabric components

COMPOUND PVC	77 %
PES	23 %

Finitura / Finishing

Carico rottura / Breaking load - UNI EN ISO 1421

Termofinissaggio / Thermo-fixing	SI / YES
Altezza produzione / Height production	Min. 140 cm - Max. 235 cm

CATAS®

ISO 9001
Certificato n. 5206/0

ISO 9001
Registration number: IT-70404

Tolleranza nei dati ± 5 % / Tolerance range ± 5
